REQUEST FOR QUOTATIONS

Procurement of Vehicles

Activity Reference No: PK-361445-GO-RFQ-011
Loan No: IDA-7255-PAK

The Sindh Water Agricultural Transmission (SWAT) Agriculture Component is a World Bank funded project under the Agriculture, Supply & Prices Department, Government of Sindh. The project will help kickstart a transformation process that will boost resilience to future climate shocks, such as floods and droughts, through three mechanisms: (i) creating a modern integrated water resources management (IWRM) system; (ii) demonstrating proof of concept in increasing agricultural water productivity for selected farmer organization (FO) subprojects; and (iii) adjusting key policies that will provide the enabling environment to scale up these successes in the future. A successful demonstration of significant increases in agricultural water productivity at the FO level will have a transformational impact, potentially leading to replication in other areas of Sindh. The project supports critical policy reforms by using the investment project financing (IPF) with Performance based Conditions (PBC) modality.

The Project Director of the Sindh Water Agricultural Transmission invites Quotations for the Procurement of Vehicles from GST-registered reputed firms, manufacturers/ authorized dealers having after sale services network including repair and maintenance.
